

## **Presentation # 19**

**Presenter:** Kevin Neithercut, ENMAX

**Title:** The application of the IEEE 1366 standard in the calculation of utility reliability indices

### **Biography**

Kevin Neithercut is a Specialist Engineer in the System Operations Group at ENMAX Power Corporation (EPC) in Calgary, Alberta. EPC owns, operates and maintains the electricity distribution and transmission network in and around the City of Calgary. Kevin's role is to ensure the continued safe and reliable operation of EPC's electric system through some of his key responsibilities which include calculating and reporting on outage statistics and system contingency planning. Kevin joined EPC in 2002 after receiving his Bachelor of Science in Electrical Engineering at the University of Saskatchewan
