

Presentation # 7

Presenter: Rick Stevens, Hydro One

Title: Ontario's "Smart Zone" - Owen Sound

Biography

Rick has over 25 years experience in the electric industry in a wide variety of disciplines including financial planning, systems development, regulatory and rate setting, customer service, mergers and acquisitions and corporate business development.

Rick is also the current Chairman of Utilimetrics, a not-for-profit association of 1200 individuals representing international member utilities in gas water and electric involved in AMI and Smart Grid initiatives.

Rick developed the overall business strategy and business case for the deployment Hydro One's smart meter program and is currently completing Hydro One's Smart Meter/Smart Network initiative which will involve the rollout of 1.2 million meter points, province-wide, by 2010.
