

Water Management 2007: Improved Inflow Forecasts for Hydropower

8th annual workshop of the CEATI Water Management Interest Group
November 15-16 - Knoxville, TN

Sponsorship and Exhibition Opportunities

Audience

This workshop will bring manufacturers and service providers together with hydroelectric utility decision-makers. Utility representation will be primarily from water management divisions. It is expected that over 100 attendees in total will participate in the workshop.

CEA Technologies Inc. (CEATI)

The CEATI program provides utilities with a cost-effective and "closed door" vehicle for sharing experiences and addressing issues pertinent to their day-to-day operations and planning. In addition to serving as a strong technical resource tool, the CEATI program model is also structured to accommodate project collaboration opportunities yielding practical deliverables in which utilities can leverage their expenditures.

The CEATI Hydro program brings together 47 of the world's leading hydropower organizations.

The Water Management Interest Group

The scope of the Water Management Interest Group (WMIG) is to focus on the development of methods & tools required to optimize hydraulic processes while maintaining safe and environmentally-friendly operations. Topics of interest include watershed management and water use planning, meteorological forecasting (water, ice, flow), operational modeling (benchmarking and performance measurement), data acquisition techniques, and impact assessment (flow, environmental requirements).

Sponsorship Opportunities

- Proceedings Package: Logo placement on front cover of printed package and workshop website; full-page color advertisement in the printed package.
- Name Tags: Logo placement on attendee name tags and on workshop website. [one available]

Exhibition Space

Each exhibit registration includes the following:

- 10' x 10' (100 sq. ft) space [ten available]
- Skirted table, chair
- Access to electrical outlets (such items as extension cords and power bars are the responsibility of the exhibitor)
- Contact information provided in proceedings package
- One workshop registration (includes meals and proceedings packages) -- additional representatives may register at a cost of \$485 (a discount of \$110 from the basic registration).

Print Requirements

Sponsors must supply logos and graphics electronically. All logos and graphics must be submitted in vector format (EPS, AI) or high-resolution (300 dpi) TIFF with white background. A PDF proof is also required for proceedings package cover. Graphics can be submitted by email directly to workshops@ceatech.ca or via FTP upload (instructions will be supplied upon request).
