

Grounding & Lightning

11th Annual Conference

October 8-9, 2019 • Houston, TX

Overview

Grounding and lightning issues continue to be an important area of development for the industry. New and better ways to design, construct and test grounding and lightning protection systems are continuously being developed in order to meet higher standards and changing industry demands. This conference is an open forum for information exchange, technical presentations, and training. Seven overarching themes will be addressed through the discussion of ideas and experiences to benefit attendees and the industry as a whole.

Supported by over 30 participating utilities, the annual Grounding and Lightning Conference brings together leading subject matter experts from around the world, while providing an exceptional opportunity for networking with consultants, manufacturers and representatives from electric utilities.

Themes

1. Lightning Protection and Performance
2. Substation Grounding
3. Personal Protective Grounding
4. Distribution and Transmission System Grounding
5. Copper Theft
6. Pipelines in Proximity to Electrical Power Lines and Structures
7. Power Cable, Control Cable, and Isolated Phase Bus Grounding

Who Should Attend?

- Electric Utilities
- Consultants
- Equipment Vendors
- Research Facilities and Laboratories
- Academics

This conference is created with the help of our utility members:
