

# Grounding & Lightning Conference

October 12-13, 2021 • Online

## Event Overview

Grounding and lightning issues continue to be an important area of development for the electrical utility industry. New and better ways to design, construct, and test grounding and lightning protection systems are continuously being developed to meet evolving industry demands. The 13th Annual Grounding & Lightning Conference is an open forum for information exchange, technical presentations, and training. Discussions and presentations will cover grounding and lightning topics applicable to all areas of electric power systems.

Supported by 35 participating utilities, the Grounding and Lightning Conference brings together leading subject matter experts from around the world, while providing an opportunity for networking with consultants, manufacturers, and representatives from electric utilities.

## Themes

1. Lightning Protection & Performance
2. Station Grounding
3. Personal Protective Grounding (PPG)
4. Distribution & Transmission System Grounding
5. Copper Theft
6. Pipelines in Proximity to Electrical Power Lines and Structures

## Who Should Attend?

- Electric Utilities
- Consultants
- Equipment Vendors
- Research Facility and Laboratory Personnel
- Academics
