

# Stations Conference

Developing Processes and Leveraging Data to Mitigate System Risk

## Event Overview

The 2021 Stations Conference: Developing Processes and Leveraging Data to Mitigate System Risk will explore methods by which to leverage equipment data and develop processes to help mitigate system risk, improving efficiency, safety, and reliability of operation.

The event will feature case studies on the following topics:

- Innovation & Design
- Maintenance Practices
- Condition Assessment & Monitoring
- Risk Management

## Who Should Attend?

- Electric Utilities
- Consultants
- Equipment Vendors
- Research Facilities and Laboratories
- Academics

This conference is created with the help of our utility members:
