Electric Utilities
Consultants
Service Providers
Manufacturers & Equipment Vendors
Universities
Why Partner with CEATI Events?

The CEATI Program Model provides electrical utilities with a cost-effective vehicle for sharing experiences and addressing issues pertinent to their day-to-day operations, maintenance and planning. In addition to serving as a strong technical resource tool through 18 focus areas across generation, transmission, distribution and utilization, our participants periodically support the development of industry-open conferences and training workshops. This is where we invite you to come join us.

Our industry-open events bring manufacturers, service providers, consultants, and world-renowned technical experts together with some of the key-decision makers in the industry. These events present excellent opportunities for targeted networking and exposure to potential clients, placing you directly in front of the end-users of your company’s products and services.

Our fall 2015 Vegetation Management Conference is organized with the support of CEATI’s Vegetation Management Task Force (VMTF) composed exclusively of electrical utility representatives from 14 participating utilities:

ALTALINK  ATCO Electric  Power Stream  Exelon
hydro one  IBERDROLA USA  PG&E  New York Power Authority
American Electric Power  National Grid  FORTIS Ontario  BC Hydro
SaskPower
