

# CEATI WOMEN IN POWER INTERNATIONAL GROUP

## Webinar

### Mentorship Triad Panel Discussion

March 10th, 2021 - 1:00 PM - 2:00 PM EST

#### *Points of Discussion*

- Panelists' education and career path to date
- Benefits of joining the Mentorship Program
- Recommendations for other mentorship groups

#### *Biographical Summary*

---

**Marianne Walter** is a Generation Planning Civil System Owner for the West side River Hydros at Consumers Energy. She has been with Consumers Energy for almost 12 years, of which she has worked on coal fired facilities, landfills, pumped storage and river hydro projects. Marianne is passionate about her work, family, and cultivating life experiences, whether they are at work or on the farm. She is a licensed Professional Engineer in the state of Michigan, earned a BS in Civil Engineering from Western Michigan University, and a Masters of Civil Engineering from Norwich University.

**Natasha Gentry** is a manager of Transmission Line Engineering group at Bonneville Power Administration. She has been with BPA for over 8 years. She has over 16 years of experience in power utility industry in transmission and distribution engineering positions. Natasha is passionate about formal and informal mentoring and professional coaching of younger engineers. She had also volunteered at local schools and science fairs to introduce engineering and encourage younger generations to pursue careers in engineering and science. Natasha is a licensed Professional Engineer in the State of Washington. She has Bachelor of Science in Mechanical Engineering from WSU and Masters of Science in Transmission and Distribution Engineering from Gonzaga University.

**Jaclynn Miller** is a Mechanical Engineer with the US Army Corps of Engineers in Seattle, WA. She has been with the Corps for about 11 years, when she began as a high school summer intern. Since graduating in 2014, Jaclynn has worked on everything from HVAC designs to Crane designs, and is currently a Project Manager serving 6 of the Corps' dams in Washington, Idaho, and Montana. After spending several years in the design world, she became passionate about seeking out opportunities to meet and support women in engineering, as it became increasingly evident that that support is critical to staying in the field. Jaclynn is currently preparing to take the PE and has a BS in Mechanical Engineering from California State University, Sacramento.

**Kristina Newhouse** is the Diversity, Equity, & Inclusion (DEI) program manager and the Engineering Development program manager at Avista Utilities in Spokane, WA. She has been at Avista for almost 17 years and spent most of her career in generation engineering. Kristina is a life-long learner and is passionate about encouraging and supporting women in engineering. She is most recently excited about finding ways she can do the same for women in the trades. Kristina is a licensed Professional Engineer in the State of Washington. She has a BS in Electrical Engineering from Washington State University. Kristina also has a certificate in Women's Leadership from Gonzaga University.
